

WE HELP EASE YOUR PAIN SO YOU CAN ENJOY LIFE.

Peggy Warner lived in the garden for 45 years. But when she developed painful arthritis and bone spurs in her knees, she was forced to come inside. She couldn't even get out of a chair, much less work in the yard.

After other facilities failed, Peggy came to Premier Physical Therapy at River Region. Their dedicated staff got right to work. Thanks to their personal attention and expert care, Peggy is regaining strength and motion in her knees – and she's already sharpening her pruning shears.

Peggy says the staff of Premier Physical Therapy is “experienced, knowledgeable, friendly, and gracious. The therapists take a real interest in you.” And we're committed to bringing that level of service to every patient. Whether you need physical, speech, or occupational therapy or even an athletic trainer, our therapists have the experience and the attention you'll need.
